*“We should attempt to bring  
nature, houses, and human  
beings together in a higher  
unity”*

*- Ludwig Mies van der Rohe -*

# MARBLE

*"Marble tiles are affordable and durable with a shiny and glossy surface, as well as high aesthetic appeal and applicability."*

*"Our collection includes seven luxurious designs tailoring from cold to warm expressions to match users' delicate preferences"*

# MODELLO

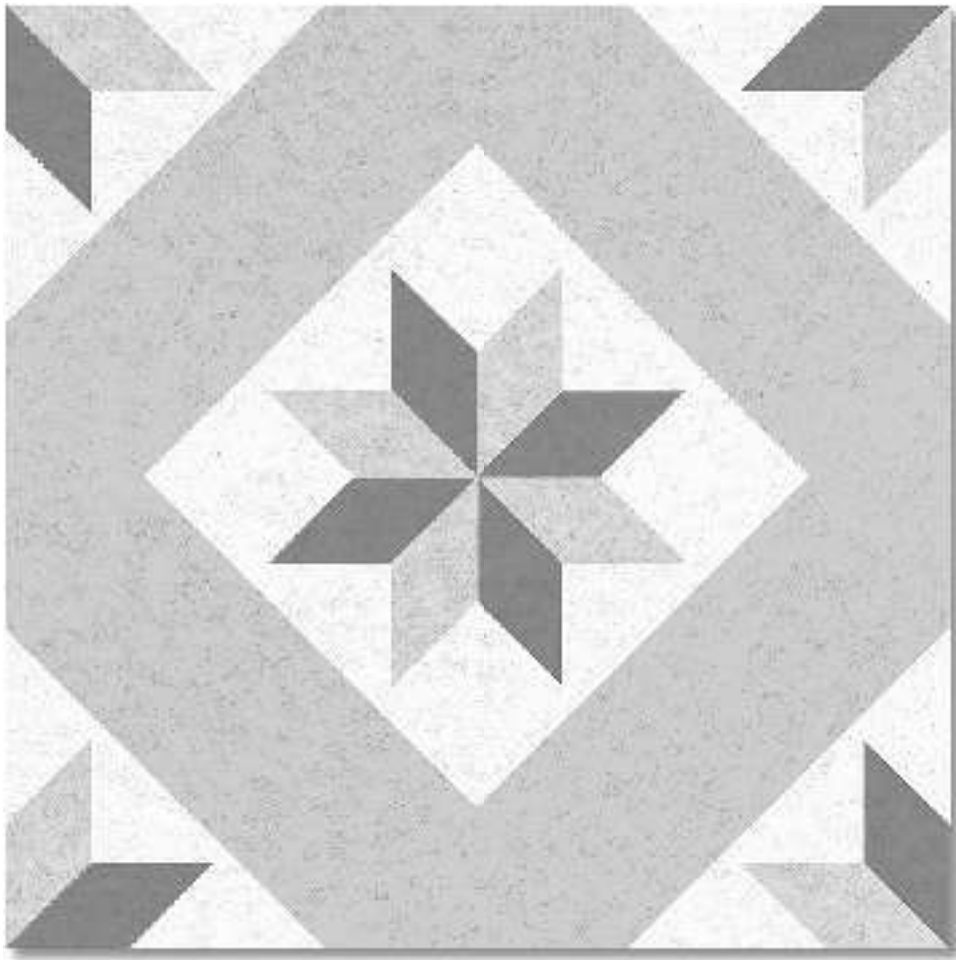

*"Modello means 'pattern' in Italian. Our collection, Modello, has classical patterns, representing the creativity of Italian and Spanish artisans.*

*Italian patterns impress customers with their symmetrical shapes and monochromatic color sets, whilst Spanish patterns bring more vibrant colors.*

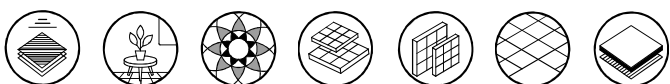

*Blue enamel surface combined with impressive patterns helps the collection create a cozy, rustic appearance to architectural works."*

# VERONA

*"Verona is a city located in Italy. In Verona, citizens used gravel to pave roads. After a long period of time, these roads automatically became more polished and smooth.*

*From this idea, the Verona Collection brings customers a delightful design of tiles that looks similar to gravel roads in Italy. Owing to the Lappato effect, the tile surface becomes sparkling and unique but still ensures effective anti-slip qualities."*

# ORIGIN

*"Using monochromatic colors, combined with a grain-coating texture, the Origin Collection creates a special visual experience that reminds us of the origin of life."*

*When the light is on, the material contrasts between the tile surface and the grain particles shimmer and look sophisticated. Light rays appear on a monochromatic base, helping viewers to see various formations of stars.*

*Because of the grain-coating texture, Origin tiles have better anti-slip qualities and can undergo abrasion better than other tiles."*
